

LOOKOUT...

for a better way to manage
commercial roof systems.

CASTRO ROOFING
EMPOWERING BUILDING OWNERS

reactive

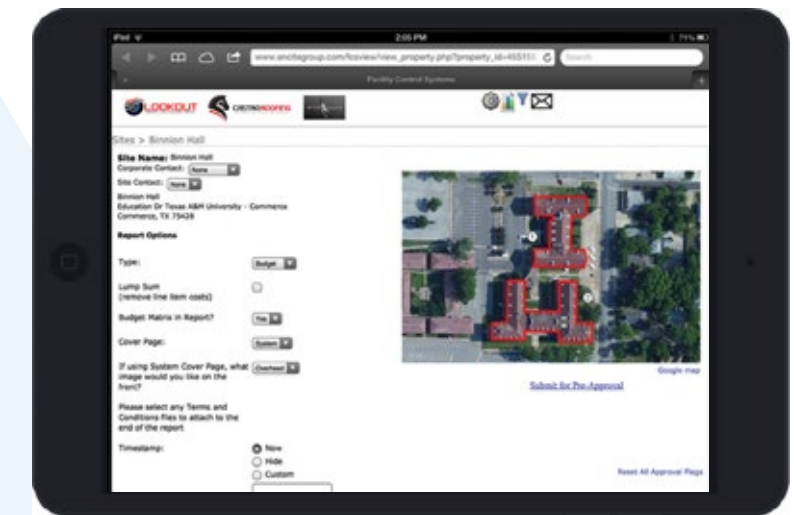

Extend the Life of Your Roof

Roof replacements are often the most expensive repair item for your building. Castro Roofing online management program called LOOKOUT will help you put together a logical roof management RoofTracker report. This serves you as a blueprint to get the most out of your roof.

Think of LOOKOUT as your “accounting program” for your roof.

Our Nationwide network of authorized Castro Roofing Leak Masters focuses on stopping water from entering your building at the lowest possible cost to you.

Give Us Your Worst Leak & We Will Fix It, Guaranteed!

As bold as this sounds, there is really no trick or magic getting your roof leak repaired permanently!

What Castro Roofing does is perform the repair the way it was supposed to be done when the building was first constructed, or correct the damage to bring back it's original new condition.

When the repairs are done correctly using proper craftsmanship and materials, the new repaired area will out last the older roof.

Dispatch your Leak Master by calling the Castro Roofing dispatch center toll free or on line from your desktop or smart phone at www.CastroRoofing.com

As we struggle with economical pressures and uncertainties, it is imperative for building owners and anyone in facility and maintenance to spend their monies wisely and manage their facility assets properly.

The ultimate goal is to achieve maximum service life at the least possible cost. For this reason LOOKOUT Life-Cycle cost has never been more appropriate.

The good news is that it costs less to be proactive than reactive. And it does help to reduce stress. We can all benefit from a little budget savings and stress reduction!

Access your RoofTracker report in bound inspection books or online from your desktop or any mobile device.

The Best Roofing Materials In The World Will FAIL If Installed Improperly... We're All About Old-World Craftsmanship... With A High-Tech Twist.

At the end of the day, the guy who's actually on the roof doing the work has to be really, really good at what he does for a roofing job to be successful. At Castro Roofing, our on-the-roof workers are our most important asset. That's why we treat them with the respect of an artisan and craftsman.

We employ advanced communications technology during each and every replacement project. Our Online Project Manager (OPM) will send you daily written descriptions, updated job photos, and a daily percentage complete reminder. Did we mention, your valuable information is archived in your convenient LOOKOUT private web portal.

Data comes in daily in real-time from the project site and is available to analyze on your computer or mobile phone. No more wondering what part of the building had been worked or what percent the project is completed and what was done during the day. You will receive pictures with a brief description of what happened each day, all at the click of a button.
